

SLURRY HOSE

Description

Tube:

NR/SBR synthetic rubber.

Reinforcement:

high tensile strength fabrics

Cover:

synthetic rubber

Temperature:

-25°C to +80°C (-13°F to +176°F)

I.D.		O.D.		Work Pressure		Burst Pressure		Bending Radius		Weight		Length	
mm	inch	mm	inch	psi	bar	psi	bar	inch	mm	lbs/ft	kg/m	ft	m

102	4"	124	4.88	150	10	450	30	32.3	820	3.68	5.47	200	60
127	5"	150	5.91	150	10	450	30	35.4	900	4.7	6.99	200	60
152	6"	175	6.91	150	10	450	30	37.4	950	5.52	8.21	200	60
203	8"	238	9.36	150	10	450	30	41	1050	10.97	16.33	200	60

Application Fields:

Mainly used in discharging abrasive and viscous slurry and water, during the construction process of the work and other application.

Product features:

Bending resistance
High pressure resistance
Weather and ozone resistant
